

Climate in the glass

PARTICIPANT WORKSHEET

Name _____ Date _____ Sample code(s) _____

Learn before you pour

- Chardonnay is the shared grape; Chablis is a Chardonnay appellation in northern Burgundy.
- Growing conditions influence ripening and harvest sugar, acids, and flavour development.
- Climate contributes tendencies; site, vintage, harvest timing, fermentation, and vessels prevent climate from identifying a bottle by itself.

First pass — write before discussion

Prompt	Sample A / first observation	Sample B / comparison
A and B structural silhouettes		
Three comparative clues		
Climate hypothesis + alternative		
Confidence before reveal		

Evidence → hypothesis

Observation(s): _____

Hypothesis: _____

Alternative explanation: _____

Confidence [] strong evidence [] plausible [] insufficient evidence

After the reveal / discussion

What held up? _____

What changed? _____

What remains unresolved? _____

One sentence worth keeping
